I heard from 2:30 to 3 pm EST. I also heard that Region 9 is briefing her next Tuesday on their Florence copper ISR Class III final permit in Arizona.

Importance: High

Holly/Molly: mostly just a heads up on this briefing with the Administrator (I only found out yesterday). Our RA and Deputy RA will be on the call for Region 8. We are keeping our fingers crossed that she supports our moving forward with draft permit issuance scheduled for next Monday.

I hope to get you a final version of our Comm Strat asap, but we continue to add Qs and As (e.g., tribal treaty rights).

Douglas

Thanks for sharing the material with us. Generally speaking, we don't see an impact on the draft final 192 rule so we think we will be in a listening mode, based on the materials you sent.

Importance: High

Hi Ingrid and Tom: FYI, we recently learned that several AAs (including OAR) have been invited to participate in a Region 8 briefing this Friday for the Administrator on our Dewey Burdock draft UIC permits and proposed aquifer exemption.

If you receive any feedback or response from your management on this project as it relates to Part 192 (or otherwise) prior to Friday's briefing, could you please let us know asap?

Thanks!

Douglas Minter

Tom/Ingrid: just to clarify, my senior management is asking for a reply from OAR even if you do not have any questions, etc. We want to ensure that OAR is on board with these proposed actions in the context of the Part 192 final rulemaking process.

In terms of timing, we may be issuing our proposed actions for public comment as early as 11/21/16.

Thanks for your time and prompt attention and we look forward to hearing back from you,

Sincerely,

Douglas Minter

Greetings Tom and Ingrid: we wanted to give you and your management the benefit of knowing where EPA Region 8 is on our proposed UIC uranium ISR-related actions by way of the following summary we recently sent through our RA to the Administrator in response to her request for an update:

Ex. 5 Deliberative Process (DP)
